##experimental_source brain
## This protein is coupled to a G protein and evokes a variety
functions by mediating intracellular signal transduction.

### IFICATION #superfamily metabotropic glutamate receptor 4

RDS G protein-coupled receptor; glycoprotein; phosphoprote
transmembrane protein

Statistics: Mean 42.646; Variance 177.023; scale 0.241

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
